Management Team - FYI. EPA and its partners have referenced the attached survey to justify the need for evaluation of HH risks from bivalve consumption.

Subject: Linnton survey

Sorry! I thought I had sent this to you already . But I think I must have been waiting to send it with a final cover letter from OR Dept Human Services. I haven't talked with Kate about sending the draft cover memo as is but I am including it so the context in which this survey was done is clear.
